SEPARATE BOUQUETS

It's just a step to the right and a jump to the left.

Because of the amount of channels on DStv and the new channels we are planning to add to the bouquet, we have had to make some changes to our channel numbers from 1 October 2007.

DStv

HOW TO ACCESS THE CHANNEL GRID

The channel grid displays a list of all available channels in the DStv Bouquet and is a quick way to check what's showing on your favourite channel. It's also a great way to tune to a channel when you're not quite sure what number that channel is on.

1. To display the channel grid, press any of the arrow keys on your remote control. (Please ensure that there is no other information on-screen, eg. the i-plate, bouquet options, etc. when you press the arrows.)
2. Use the arrow keys to move the highlight around the grid. As you move the highlight, you will notice that the information on the i-plate (at the bottom of the screen) updates to reflect the programming information on the selected channel. To tune to the selected channel, simply press "OK". To view extended programme information, press "i".
3. To remove the channel grid, press "EXIT".
4. You can also set reminders from the channel grid. Press "i" and then the arrow to highlight the next programme. You can press "OK" once to set a normal banner reminder or press "OK" twice to set an autotune reminder.

- For more information visit www.dstv.com or go to **Channel 199**
